

# MOTORIZED SS304 BALL VALVE WITH COMPACT ACTUATOR

"RC" make motorized SS304 ball valve comes with quarter turn non-spring return compact electric actuator 220V AC supply. The electric actuator has weatherproof enclosure, so it can be wisely installed in open air. The actuator has rugged high strength tempered gear & super efficient motor for providing countless operation.

## Basic Features

- Low noise level
- Completely watertight from all possible v and oil seals.
- Pre-wired 3 core wire for simple & fast installation.
- Continuous mechanical position indicator.
- De-clutch/key type manual-override provision.
- Potential free feedback provision.
- Compact size for easy installation in confined areas.
- B.M.S. compatible.

## Specification

Parameter	Details
Input Supply	24V AC/DC or 220V AC
Control Type	COM-ON-OFF type or 4-20mA (modulating type, optional)
Position Feedback	Potential-free feedback provision MAX 220V AC, 10 Amp max.or 4-20mA (with 4-20mA input signal only)
Run Time	45 Seconds (quarter turn)
Power Consumption	Less than 1 Amp
IP Rating	IP66 rated (IP67 optional)
Ball Valve Type	Extended neck design, 2-piece design
Valve MOC	Complete SS304
Valve Seat	P.T.F.E.
Pressure Rating	PN25
End Connection	Upto 32mm: Screwed end40mm & above: Flanged end
